Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

2. Claims 1-6, and 8-13 remain rejected and claims 7 and 14 are rejected under 35 U.S.C. 102(e) as being anticipated by Choi et al., for the reasons of record set forth in the prior Office Action.

Applicant's arguments filed 1-07-03 have been fully considered but they are not persuasive. Applicants traverse the instant rejection on the grounds that Choi et al. does not anticipate the claimed invention since the claimed invention involves the addition of a lipid that includes a polyethylene-glycol based polymer to a composition containing preformed lipid:nucleic acid complexes. However, contrary to Applicant's assertions as stated in the prior Office Action, the PEG-modified ceramide lipids of Choi et al. can be used in preventing aggregation of liposomes incorporating targeting moieties or drugs, such as antibodies, and DNA (col. 4, lines 28-33). The phrase "liposomes incorporating targeting moieties or drugs, such as antibodies, and DNA," encompasses the lipid:nucleic acid complexes according to the present invention, wherein the PEG-modified ceramide lipids can be added thereto and thereby prevent aggregation of these complexes. In regards to the limitations recited in claims 7 and 14, Applicants are directed to col. 28, line 26 of Choi et al., which recites a gene construct for therapeutic use. One of ordinary skill in the art would recognize that "gene construct" of Choi et al. encompasses the vectors recited in claims 7 and 14 of the instant application. Furthermore, it

Art Unit: 1635

is noted that the instant claims do not require that the recited steps be carried out in any specific order.

Conclusion

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
